

BELGIUM WALLONIA

@AACC 2023

Anaheim Convention Center

BOOTH #2370

July 25th - 27th, 2023

Anaheim, CA

Wallonia.be

Wallonia has an excellent logistics infrastructure and «multimodality» is the keyword. **Liege Airport** was awarded the title of **best cargo airport in the world** for the year 2020. You will also find yourself well supported : the actors of the sector are gathered in the «Logistics in Wallonia» cluster.

WALLONIA EXPORT & INVESTMENT AGENCY

The Wallonia Export & Investment Agency (AWEX) is the institution in charge of the development and management of Wallonia's domestic and international economic relations.

Through a personalized, innovative, and sustainable approach, AWEX supports Walloon companies - regardless of their size, sector, or target market - in every step of their international endeavors. This includes exports, technological partnerships, and development abroad.

The agency's vast network of connections ensures the best advisors are always by your side. Our local anchors and agents abroad are capable of providing unparalleled insight to take your company to the next level. In addition, our connections will help establish your business in the global marketplace and promote it throughout the world. Training, incentives, and international financing are also available.

AWEX is also committed to strengthening Wallonia's position as the premier gateway for international investors seeking success in the heart of Europe. We work closely with them to inform, convince, and advise in every stage of their development.

Feel free to get in touch with one of our local or international agents via our websites listed above.

In our network of more than 400 employees in nearly 100 countries around the world, there is always someone ready and willing to support you in your approach.

ACTIVITIES, PRODUCTS, INNOVATIONS AND BRANDS

Coris BioConcept is developing, producing and marketing rapid Antigen in-vitro diagnostic kits for infectious diseases since 1996. Coris also markets the RESIST range for rapid detection of ANTIBIOTIC RESISTANCE. Coris solutions are mainly based on immunochromatographic technology (ICT) or Lateral Flow Immunoassay. Coris is looking for a distributor in United States.

RANGE OF PRODUCTS

Range of IVD for rapid detection of AMR or Antibiotic Resistance: Carbapenemases, CTX-M, ESBL, AMPc
RESIST RANGE: O.K.N.V.I. RESIST-5, RESIST ACINETO, RESIST CTX-M
Additional material to the RESIST RANGE: RESIST-BC, ReSCape
Complete range of positive controls for virus, parasites and bacteria diagnostics

ADDED VALUES

Coris BioConcept provides services for custom tests development and contract manufacturing. The company is present in more than 60 countries in Europe, Asia, South America, Africa and Oceania. Coris BioConcept is continually involved in collaborative projects with Belgian and European Research Institutes, laboratories and companies for the development of breaking new solutions.

CERTIFICATION

All Coris BioConcept's products fulfil the CE marking requirements and the company is also ISO 13485 certified.

ACTIVITIES, PRODUCTS, INNOVATIONS AND BRANDS

D-tek develops and produces diagnostic kits for human autoimmune diseases. D-tek notably proposes a wide range of automated multiplexing diagnostic tests. The automation is assured thanks to BlueDiver Instrument machines.

RANGE OF PRODUCTS

D-tek proposes ELISA (BlueWell), manual immunodot (BlueDot), automated immunodot (BlueDiver Dot) and automated microarrays (BlueDiver Quantrix).

ADDED VALUES

D-tek's multiplexing kits are flexible and rapid. Thanks to the automation on BlueDiver Instrument, D-tek's kits are the most complete and efficient diagnostic tools for human autoimmune diseases.

CERTIFICATION

ISO13485:2016

ACTIVITIES, PRODUCTS, INNOVATIONS AND BRANDS

DiAgam is a European company, with more than 25 years of experience, which manufactures Turbidimetric Specific Protein reagents.

Our operations are ensured through our direct affiliates in Belgium, France, Spain, Portugal and Brazil. We also export in ASEAN, EMAE, LATAM and US markets.

RANGE OF PRODUCTS

Albumin (immunological), Albumin in Csf, Alpha-1-acid glycoprotein, Alpha-1-antitrypsin, Alpha-1-microglobulin, Alpha-2-macroglobulin, Beta-2-microglobulin, Apolipoprotein A1, Apolipoprotein B, ASO, Calprotectin, Complement C3, Complement C4, Ceruloplasmin, CRP, Haptoglobin, Ig A, Ig E, Ig G, Ig G in Csf, Ig M, Lipoprotein(a), Microalbumin, Prealbumin, Rheumatoid Factor, Retinol binding protein, SARS-CoV-2, Transferrin.

ADDED VALUES

Available in OEM or instrument specific packaging kits for instruments promoted by Abbott*, Beckman Coulter*, Siemens*, Ortho Clinical Diagnostics*, Roche* etc...

(*All products names and company names in this document remain the property of their respective owners).

ACTIVITIES, PRODUCTS AND BRANDS

Present in more than 75 countries with 80 distributors, DIAsource ImmunoAssays develops, manufactures and markets clinical diagnostic RIA & ELISA products for endocrinology, autoimmunity and infectious diseases. We also provide selected instrumentation to IVD laboratories worldwide. DIAsource is also a recognized supplier of high quality and unique Antibodies, internally developed with special focus to be used in IVD Assays.

RANGE OF PRODUCTS

ELISA - RIA - ANTIBODIES - INSTRUMENTS

ADDED VALUES

DIAsource is specialized in the endocrinology, autoimmunity and infectious disease markets. We offer a wide range of speciality products covering these domains. In combination with our products DIAsource is offering automatization solutions for most of our assays helping customers to streamline their daily work. Our sales team, product managers and engineers are serving our customers on a daily basis.

CERTIFICATION

ISO 9001 - ISO 13485

ACTIVITIES, PRODUCTS AND BRANDS

Fox-Ware is a Belgian company specialized in the development of software solutions related to IVD.

RANGE OF PRODUCTS

GeneFox : an automatic interpretation software allowing the genotyping of the samples based on melting curves analysis.

ADDED VALUES

Fox-Ware designs and develops softwares that can be used with exported data files from several qPCR machines. Datas can be imported into results and/or treated into graphics. Results can be interpreted as suggestions and/or exported as reports.

NANO FLOW

CONTACT

Noan Nivarlet
noan.nivarlet@nanoflow.eu

ACTIVITIES, PRODUCTS AND BRANDS

Nano Flow is a Belgian company which specializes in the development and manufacturing of highly spherical and monodisperse gold nanoparticles for IVD. We also offer a service of custom gold conjugation (antibody, protein, DNA, polymer...), using our unique automated conjugation process. It will help our customers to reach improved sensitivity and reproducibility.

RANGE OF PRODUCTS

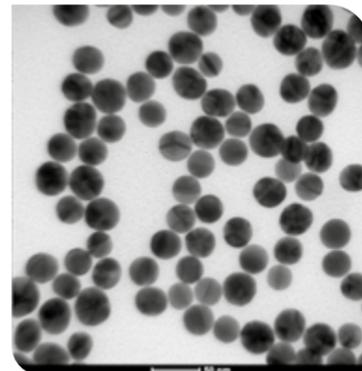

Highly spherical and monodisperse Gold nanoparticles: 10, 20 & 40nm
Custom conjugation Service : 50ml-20L (OD1-100)
Off-the-shelf gold conjugates (Anti-species, Anti-biotin, ProtA/G...)

ADDED VALUES

Our gold nanoparticles are unique in terms of shape and size uniformity. Indeed, our gold particles are truly spherical (no sharp edges particles like hexagons) and with no odd shapes. In addition, our gold is 2 to 3 times more monodisperse compared to other commercial gold. This makes our gold unique to improve the sensitivity of lateral flow immunoassays.

ACTIVITIES, PRODUCTS AND BRANDS

OncoDNA's mission is to improve patients' outcomes by empowering physicians, biopharma companies and researchers to deliver the promise of precision medicine. Based on years of experience and Research and Development, we have been able to develop cutting-edge solutions. Our unique portfolio combines 3 pillars: cancer biomarker tests, genomic services in oncology and data interpretation tools.

RANGE OF PRODUCTS

Our cancer in-house biomarker tests, OncoDEEP (solid biopsy) and OncoSELECT (liquid biopsy), improve cancer detection, diagnosis, and treatment recommendations. They provide molecular tumor characteristics and genomic information through our genomic services. Our decentralized OncoDEEP Kit solution enables NGS analysis and generates a comprehensive data analysis report using OncoDKM software.

ADDED VALUES

In the pursuit of better care, we have been building an ecosystem of partners involved along the entire value chain - from translational research and drug development to patient treatment and monitoring. Based on a decade of experience and Research and Development, we have been able to develop cutting-edge solutions and have grown into a renowned company, leader in precision medicine in Europe.

info@zentech.be

ACTIVITIES, PRODUCTS AND BRANDS

ZenTech is a Belgian biotechnology company specializing in the development of IVD solutions for newborn screening. The tests allow the detection of rare metabolic and genetic diseases at an early stage, before symptoms appear.

RANGE OF PRODUCTS

Immunoassays, Mass Spectrometry, DNA Analysis and Fluorometry

ADDED VALUES

ZenTech designs and develops innovative non-invasive diagnostic solutions and services to meet the needs of all stakeholders involved in screening children for diseases, to ensure a safer start in life
